

# HIMANSHU SINGH YADAV

Surat, Gujarat, India | [+91 6386220865](tel:+916386220865) | [itshimanshu666@gmail.com](mailto:itshimanshu666@gmail.com) | [LinkedIn](#) | [GitHub](#)

## TECHNICAL SKILLS

**AI / ML:** Python, Machine Learning, Deep Learning, Gen AI, NLP, Scikit-Learn, Pandas, NumPy, Matplotlib, Power BI

**Web & Backend:** Flask, Node.js, REST APIs, HTML, CSS, JavaScript

**Cloud & Tools:** AWS Cloud, Git & GitHub, SQL, Jupyter Notebook, MCP (Model Context Protocol)

## EXPERIENCE

**Machine Learning Intern** · Skillbit Technologies

Oct 2025 – Nov 2025

- Executed end-to-end ML pipelines — data collection, preprocessing, feature engineering, model training, and evaluation — on real-world industry datasets.
- Built a Movie Recommendation System using content-based & collaborative filtering with cosine similarity to suggest movies based on user preferences and viewing history.
- Developed a Spam SMS Classifier using NLP (Naive Bayes / SVM) achieving high precision & recall for spam detection across diverse message datasets.

## PROJECTS

**Heart Disease Prediction System**

2026

- Built a full-stack clinical web app using Flask & SQLite to predict heart disease risk (Low / Moderate / High) from 11 medical parameters including age, cholesterol, BP, chest pain type, and ECG results.
- Trained and serialized an ML model (Pickle + Standard Scaler) to classify patients by risk level based on predicted probability scores with consistent accuracy.
- Integrated Google Gemini AI (gemini-1.5-flash) chatbot for personalized heart health advice, automated PDF report generation via ReportLab, and full doctor login & patient CRUD dashboard.

**Tech:** Python · Flask · Scikit-Learn · SQLite · NumPy · Pandas · Gemini API · ReportLab · HTML · CSS

**AI-Powered Mental Health Analyzer**

2025

- Developed an ML application that analyzes emotional patterns from text input to assess mental health indicators and detect stress, anxiety, and mood trends.
- Applied NLP techniques for sentiment analysis and multi-class emotion classification; visualized emotional well-being trends using Matplotlib for actionable insight.

**Tech:** Python · NLP · Scikit-Learn · NLTK · Pandas · Matplotlib · Flask

**Speech Recognition Web App**

2025

- Built a real-time speech-to-text application supporting 8 languages (English, Hindi, Spanish, French, German, Japanese, Chinese & more) using the Web Speech API.
- Features include continuous listening, interim results, live audio meter visualization, event log panel, transcript download as .txt, clipboard copy, and dark/light theme toggle.

**Tech:** HTML · CSS · JavaScript · Web Speech API · DOM Manipulation

## EDUCATION

**B.Tech – Artificial Intelligence & Machine Learning**

Expected May 2027

P P Savani University, Kosamba, Gujarat | **CGPA: 7.5 / 10.0**

**Relevant Coursework:** Python, Artificial Intelligence (AI), Machine Learning (ML), Data Structures & Algorithms (DSA), Operating System (OS), Database Management System (DBMS), Computer Networks (CN), Object Oriented Programming (OOPS - Java), Web Technologies, Computer Organization (CO), Java, Android Studio, R Programming, PHP, Cloud Computing & Applications, Artificial Intelligence of Things (AIoT), Business Analytics

## CERTIFICATIONS & ACHIEVEMENTS

### Certifications

- Claude Code in Action — Anthropic
- AWS Academy Cloud Foundations — Amazon Web Services (2025)
- AWS Academy Generative AI Foundations — Amazon Web Services (2025)
- Mastering Power BI Report Design — Udemy
- Canva AI Specialization: Design Apps, Websites & Visuals — Canva
- Build AI SaaS using Cursor & Gemini — Capabl India
- Strategic Information Technology — Saylor Academy
- Android App Development Specialization — Coursera

### Achievements

- SSIP Participant (2025)** — Selected under Student Startup & Innovation Policy at P P Savani University for developing an **AI-powered Crop Yield Prediction System** using ML on soil, weather & fertilizer data to support data-driven agricultural decisions for farmers.
- Attended Tech Globe Fest — engaged with the tech community on emerging AI/ML and Generative AI trends.
- Completed 13+ industry-relevant certifications across AI/ML, Cloud Computing, Full-Stack Development, and Data Analytics.
